MEMORANDUM FOR THE RECORD

61-9892

On 9 November 1961, Mr. Sam Papich acting on instructions from Mr. J. Edgar Hoover called on General Cabell to talk about one aspect of the Latin American survey team.

Mr. Papich said that Mr. Hoover had heard that the Federal Bureau of Investigation was being named as the moving force behind the survey. Mr. Hoover wished to deny that this was the case.

General Cabell stated that he had had no feeling that the FBI was the prime mover, nor had he gained such an impression in conversations with senior Agency officials. General Cabell asked Mr. Papich to convey this to Mr. Hoover.

Mr. Papich noted that he had discussed the terms of reference with [redacted] and that he was satisfied with the terms of reference and with [redacted] responses.
